Dear Feltch,

Thanks for your flattering and informative letter of the 4th.

I'm in the middle of something else I've taken from the typewriter to as you about one thing of which you reminded me. I'll write you morelater, after I finish what I can't do as rapidly as I once could.

You refer to the Indonesian operations. I think you refer to one - I've left your letter, which I've just read, for Lil to read - and I think there were two, close together.

Do you remember their code names and the names of any of the carriers involved in them?

I'd like very much to know.

Thanks and best wishes,

Harold
